Catherine Anderson practises primarily in the areas of contract drafting and advice, dispute resolution and dispute avoidance, acting for both principals and contractors.

Catherine has assisted clients in the construction and infrastructure, resources and information technology industries, and has provided advice and assistance to clients throughout Australia.

Catherine is recognised by *Best Lawyers in Australia™* as a leading practitioner in the field of construction and infrastructure law.

Construction & Infrastructure

Providing a wide range of advice on risk allocation and drafting project agreements, along with issues such as delay and disruption, changes in scope, defective works, negligence, and claims arising under statute.

Acting for a project consortium in relation to construction phase issues on a new hospital project, including the conduct of a mediation, Supreme Court proceedings, Federal Court applications and arbitration.

Advising a prospective equity investor in relation to the project documentation for a major infrastructure project in New South Wales.

Acting for a head construction contractor on a large infrastructure project in relation to a dispute involving claims of defective work and breach of contract, including the conduct of an arbitration, a mediation, and Supreme Court proceedings.

Advising on the delivery of a major hospital infrastructure project in Tasmania.

Acting for a head construction contractor on a significant infrastructure project in relation to a dispute involving claims of changes in scope, misrepresentation and breach of express and implied contractual obligations.

Acting for a professional services firm in Federal Court proceedings involving multi-billion dollar claims for misleading or deceptive conduct in connection with a major infrastructure project in Brisbane.

Advising a major D&C contractor on its bid for two significant bulk earthworks packages for a new airport in Western Sydney.

Advising a D&C contractor on its bid for a high value series of road upgrade packages in Melbourne to be delivered by PPP.

Resources

Advising an investor on claims in relation to two renewable energy projects.

Advising an oil and gas company on the sale of strategically significant infrastructure in Sydney.

Acting for a major resources company in a dispute involving significant contractor claims regarding changes in scope and delay.

Acting for a principal in relation to a dispute arising in the context of the construction of facilities at a gold mine, involving subcontractor claims under security of payment legislation and the contract.

Information Technology

Acting for a head contractor in relation to a dispute with a software subcontractor regarding defective work, contractual defaults and termination of a major information technology build agreement.

Advising an international defence systems supplier in relation to disclosure requirements and confidential information.
