Tony Molino has over 40 years' experience in the provision of commercial and strategic advice in the construction, infrastructure, resources, defence and IT industries and has provided advice and assistance to clients throughout Australia and internationally.

Tony is active in commercial arbitration, litigation and alternative dispute resolution, including providing assistance on negotiated solutions, mediations and expert determinations. He has extensive experience in a wide variety of matters including claims under contract law, the Australian Consumer Law (including pre-existing trade practices legislation), common law and statutory entitlements, equity, security for payment and international jurisdictional issues.

Tony drafts contracts and other project documentation for a range of owners, contractors, and engineering and infrastructure service providers involved in defence, infrastructure, resources development, commercial development, engineering works, manufacturing, transport, and software and systems development.

Tony has been recognised by Who's Who Legal, *Best Lawyers in Australia*TM, Doyle's Guide and Chambers & Partners Asia-Pacific Guide as a leading practitioner in the field of Construction and Infrastructure and Alternative Dispute Resolution. Tony is also named as a Who's Who Legal 'Thought Leader' in the field of Construction.

Construction & Infrastructure

Advising a major equity investor in relation to the project documents for the construction of the Victorian Comprehensive Cancer Centre in Melbourne.

Advising Project Co in relation to the delivery and operation of a major hospital PPP project in South Australia.

Acting for a large international contractor on various claims and issues arising in relation to the construction of rail infrastructure in New South Wales.

Acting for the owner of major water infrastructure in Victoria, advising on significant claims management and resolution, in the context of a PPP model.

Representing a major professional services firm in Federal Court proceedings (including a class action), involving multi-billion dollar claims for misleading and deceptive conduct in connection with the Airport Link toll road in Brisbane.

Acting for and advising a number of large contractors on road and infrastructure project bids including the West Gate Tunnel, the Snowy 2.0 project and the Western Sydney Airport project.

Resources

Providing advice on major mine expansions involving new port facilities, rail, road and rail infrastructure.

Acting for parties on power station construction and operation issues and gas pipeline, terminal and gas plant projects.

Defence

Advising on contracts and disputes for major project platforms for sea, land and air.

Information Technology

Advising on intellectual property disputes, software development, installation and software systems integration issues.
